Information Natural aniline leather with nubuck effect and rustic appearance.
Use Upholstery leather for highest demands. Especial for large-area suites.
Thickness 1,1-1,3 mm
Raw material Only first class European raw ware.
Tanning The leathers are being produced ecologically safe, according to laws and regulations, without AZO colours
Inflammability DIN EN ISO 1021-1 EUFAC, DIN EN ISO 1021-2 EUFAC.
Cleaning and care instruction Davos is a high-quality aniline leather. Aniline leather is soft, warm and open pored full grain leather. Due to the open pores aniline leather is slightly sensitive. For everyday cleaning, it is sufficient to occasionally dust off the leather with a feather duster or a dry dust cloth. Stains can be additionally cleaned with a damp terry cloth. Not too wet! Dry the darkened area with a hair dryer to avoid remaining water marks. Always practice a cleaning test in a hidden area! Be especially careful with lighter leather. For difficult stains, it is always better to contact a specialist first. Damage can easily occur due to improper cleaning attempts. For regular treatment of Aniline leather we recommend Aniline Cream. The Aniline Cream prevents stains and dirt and keeps the leather soft and smooth. Older leather and leather which is regular exposed to sun or near a fireplace should additionally be treated with Aniline Protector. The Aniline Protector provides the necessary moisturizing of dry leather and prevents fading. Depending on the strain, heat, and light intensity, the leather should be sparingly maintained every three to twelve months.
Note Batch to batch variations in shade may occur within commercial tolerances.
