Information Natural aniline leather with nubuck effect and rustic appearance.
Use Furniture, leather goods, applications
Thickness 1,1/1,3 mm
Raw material Only first class European raw ware.
Tanning The leathers are being produced ecologically safe, according to laws and regulations, without AZO colours.
Inflammability DIN EN ISO 1021-1 EUFAC, DIN EN ISO 1021-2 EUFAC.
Cleaning and care instruction <p>Ranchero is a high-quality aniline leather. Aniline leather is soft, warm and open pored full grain leather. Due to the open pores aniline leather is slightly sensitive.</p> <p>For everyday cleaning, it is sufficient to occasionally dust off the leather with a feather duster or a dry dust cloth.</p> <p>Stains can be additionally cleaned with a damp terry cloth. Not too wet! Dry the darkened area with a hair dryer to avoid remaining water marks. Always practice a cleaning test in a hidden area! Be especially careful with lighter leather.</p> <p>For difficult stains, it is always better to contact a specialist first. Damage can easily occur due to improper cleaning attempts.</p> <p>For regular treatment of Aniline leather we recommend Aniline Cream. The Aniline Cream prevents stains and dirt and keeps the leather soft and smooth.</p> <p>Older leather and leather which is regular exposed to sun or near a fireplace should additionally be treated with Aniline Protector. The Aniline Protector provides the necessary moisturizing of dry leather and prevents fading.</p> <p>Depending on the strain, heat, and light intensity, the leather should be sparingly maintained every three to twelve months.</p>
Note Batch to batch variations in shade may occur within commercial tolerances.
