

LUNE™  
Design by Jaime Hayon, 2017

REPUBLIC OF **Fritz Hansen**®

# LUNE™

DESIGN BY JAIME HAYON, 2017

---

Lune™ is the very essence of a warm and cosy setting, with a dash of exclusivity and urbanity to it. Lune combines the renowned Republic of Fritz Hansen™ quality with a functional modular system. The result is a playful design where designer Jaime Hayon's curvy characteristics are elevated to an extremely comfortable and beautifully looking sofa, from every angle - for a party of two as well as for ten.

## Colours & material:

The fabric, Linara by Romo, chosen for the Designer Selections is made in cotton to create a comfortable seating of an exceptionally soft texture.

Choose between an array of Designer Selection colours: Grey Mist, Eucalyptus, Lead, Blueberry, Gingersnap or Indigo. Lune™ is also available in a wide range of standard fabrics.

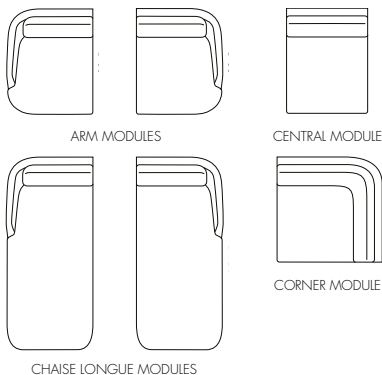

## Modules:

Lune™ is a modular sofa created to be combined in unlimited ways of shaping it - from a straight 2-seater to bigger L-shapes and chaise longue options.
