

OPEN CANDELABRA

FURNITURE / LIGHTING / ACCESSORIES

PRODUCT FACT SHEET

JENS FAGER ON THE DESIGN "The design is based on a simple idea: to create a new take on the iconic multifaceted candelabra - but with as little volume as possible. The design process was all about creating a slim, steady and harmonic candleholder with a timeless, effortless look - and the result is a simple, almost two-dimensional object that fits perfectly on a large table, as well as in a slim windowsill. The rounded features and open form add to the warmth of a cosy candlelight atmosphere. OPEN is reduced in terms of both design and use of material, but still it brings out the light in the most beautiful way."

PROCESS Casted and hand polished. Followed by lacquering and final hand assembly.

DESIGNED BY / YEAR OF DESIGN Jens Fager / 2016

TYPE Candelabra

DESCRIPTION A contemporary candelabra, characterized by its overall shape and graphic details. Light and slender with a stable metal base, ideal for the windowsill or dining table.

ENVIRONMENT Indoor

DIMENSIONS (CM) W: 21 / H: 20 / D: 8

MATERIAL Powder coated aluminum alloy

CLEANING INSTRUCTIONS Remove dust with dry cloth. Remove candle wax with boiling water, and carefully dry the candelabra afterwards.

ABOUT THE DESIGNER Jens Fager is one of Sweden's most interesting young designers. A graduate from Konstfack University in Stockholm, he has already made an international impact with exhibitions in London, Milan, and Stockholm.
